# HOPE

When your child struggles with learning challenges, you're often left feeling alone, defeated—maybe even like you've failed. With HOPE you're not alone, and your child doesn't have to struggle. Healing is possible!

Most programs will help you teach your child to compensate or work with their learning delay. But, your child's learning struggles are not written in stone and there's hope beyond compensating. Find healing for ADD, ADHD, reading delays, Dyslexia, and other learning disabilities with the Bridgeway Hope Package.

“ I have so much praise for your homeschool program. My son is learning disabled and this is the only curriculum available that I have tried that he can truly learn and excel in and feel good about himself. He loves it so much. ”  
- Elise

# Our unique approach brings healing for learning disabilities through:

- **A Full Picture** – Complete learning, memory, and academic assessments, pre and post program placement testing
- **Healing Therapy** – An expertly designed online sensory integration program that retrains your child's brain, completed 4 times a week for 9-12 months
- **Customized Curriculum** – A full year (4 courses) of homeschool curriculum that is tailored to your child's learning and personality style and built around their strengths
- **Consistent Monitoring and Support** – A by-your-side Academic Advisor with you every step of the way encouraging and supporting both you and your child
- **Complete Protection** – Accredited grade reporting, record keeping, school counseling, a full year's course projection and transcript
- **Guaranteed Flexibility** – A homeschool program that allows you the freedom to do it your way

Why settle for compensation when you can bring healing to your child? With the Bridgeway HOPE package you'll watch as your child conquers their academic hurdles, show more responsibility and organization, and begins to feel confident and dream again. Because every child deserves the right to dream, and hope is what dreams are made of.
